Champagne Lanson was founded in 1760 and is one of the oldest Champagne Houses. Drawing on family heritage and unique expertise, the women, and men of Lanson have been guided for 260 years by their love of a job well done and their love for others. The unique and authentic style of the Champagnes rests on 4 immutable pillars: a meticulous selection of Crus; a vinification according to the traditional Champagne principle; a rare collection of reserve wines, and a longer ageing in cellars.
